

Wasser Polymer Pvt. Ltd., is an **ISO 9001:2008** certified organization engaged in manufacturing, trading and supplying Paint Chemicals and Paints. Our organization holds expertise in manufacturing a trusted quality range of Chemicals and Paints, since 2011. Our product range includes Paint Chemicals, Exterior and Interior Paints, Fire Proof Paint, Epoxy Coatings, Polyurethane Coatings, Heat Resistant Coatings, Miscellaneous Coatings and others. The range offered by us is made using excellent quality ingredients that are procured from some of the most trusted vendors of the industry, most of which is of foreign origin. These products are available in variety of colors, patterns and other specifications to meet the exact requirements of our patrons. Moreover, we engage ourselves in providing a quality range of ready to use medium which can be applied directly on Concrete, Asbestos, Fibre Board, Sand, Cement Plaster, Gypsum Board and others. We formulate these paints keeping in mind the extreme Indian climatic conditions.

Our collection is widely admired by the clients for its aesthetic appeal, abundant color schemes and resistance against fungus that can ruin the walls. Our strength lies in highly trained manpower with rich industry experience in the latest texture technologies, development tools, wide band width of developing environments and wide spectrum of industries in a variety of platforms. The entire range of products is designed as per the clients' preferences and requirements. We also make sure to check these products on certain quality standards to gauge their flawless nature, before dispatch. Moreover, we provide these paints to our patrons in excellent quality packaging material, which ensures their safe transit. Our product range is also exported to Indian Subcontinent, Middle East and South East Asia.

Wasser Polymer is professionally managed by a group of highly qualified and experienced persons who have excelled in their respective fields over a long period of time and have proven records of their achievements. That is the reason why, within such a short period of time since its inception, Wasser Polymer has gained the trust and patronage of top notch clients.

The primary focus of the company has always been Research and Development of new products as well as value addition of existing products. Our own laboratory is highly equipped with latest testing equipments and they are managed by highly trained and qualified personnel. In our lab, we also have the expertise to tailor make products for individual clients according to their respective requirements and then take it to the production scale after approval of samples.
